## List of Diseases

|  |  |
|--|--|
| Communicable, maternal, perinatal and nutritional conditions | Ascariasis                               |
|  | Trichuriasis                             |
| Infectious and parasitic diseases                            | Hookworm disease                         |
| Tuberculosis   | Ancylostomiasis                          |
| STDs excluding HIV   | Necatoriasis                             |
| Syphilis   | Food-borne trematodes                    |
| Chlamydia  | Leprosy                                  |
| Gonorrhoea   | Other infectious diseases                |
| Trichomoniasis   | Rift Valley fever                        |
| Genital herpes   | Lassa fever                              |
| Other STDs   | Crimean-Congo Haemorrhagic fever         |
| HIV/AIDS   | Marburg virus disease                    |
| HIV resulting in TB  | Ebola virus disease                      |
| HIV resulting in other diseases                              | Severe Acute Respiratory Syndrome [SARS] |
| Diarrhoeal diseases  | Dracunculiasis                           |
| Childhood-cluster diseases                                   | Taeniasis                                |
| Whooping cough   | Buruli Ulcer                             |
| Diphtheria   | Chikungunya virus disease                |
| Measles  | Yaws                                     |
| Tetanus  | Clonorchiasis                            |
| Meningitis   | Opisthorchiasis                          |
| Encephalitis   | Fascioliasis                             |
| Hepatitis  | Paragonimiasis                           |
| Acute hepatitis A  | Mycetoma                                 |
| Acute hepatitis B  | Respiratory infections                   |
| Acute hepatitis C  | Lower respiratory infections             |
| Acute hepatitis E  | Upper respiratory infections             |
| Parasitic and vector diseases                                | Otitis media                             |
| Malaria  | Maternal conditions                      |
| African Trypanosomiasis                                      | Neonatal conditions                      |
| Chagas disease   | Preterm birth complications              |
| Schistosomiasis  | Birth asphyxia and birth trauma          |
| Leishmaniasis  | Neonatal sepsis and infections           |
| Lymphatic filariasis   | Other neonatal conditions                |
| Onchocerciasis   | Nutritional deficiencies                 |
| Cysticercosis  | Protein-energy malnutrition              |
| Echinococcosis   | Iodine deficiency                        |
| Dengue   | Vitamin A deficiency                     |
| Trachoma   | Iron-deficiency anaemia                  |
| Yellow fever   | Other nutritional deficiencies           |
| Rabies   | Noncommunicable diseases                 |
| Intestinal nematode infections                               | Malignant neoplasms                      |

## List of Diseases

|   |   |
|---|---|
| Mouth and oropharynx cancers                      | Dysthymia                                 |
| Lip and oral cavity                               | Bipolar disorder                          |
| Nasopharynx                                       | Schizophrenia                             |
| Other pharynx                                     | Alcohol use disorders                     |
| Oesophagus cancer                                 | Drug use disorders                        |
| Stomach cancer                                    | Opioid use disorders                      |
| Colon and rectum cancers                          | Cocaine use disorders                     |
| Liver cancer                                      | Amphetamine use disorders                 |
| Pancreas cancer                                   | Cannabis use disorders                    |
| Trachea, bronchus, lung cancers                   | Other drug use disorders                  |
| Melanoma and other skin cancers                   | Anxiety disorders                         |
| Malignant skin melanoma                           | Eating disorders                          |
| Non-melanoma skin cancer                          | Autism and Asperger syndrome              |
| Breast cancer                                     | Childhood behavioural disorders           |
| Cervix uteri cancer                               | Attention deficit/hyperactivity syndrome  |
| Corpus uteri cancer                               | Conduct disorder                          |
| Ovary cancer                                      | Idiopathic intellectual disability        |
| Prostate cancer                                   | Other mental and behavioural disorders    |
| Testicular cancer                                 | <b>Neurological conditions</b>            |
| Kidney, renal pelvis and ureter cancer            | Alzheimer disease and other dementias     |
| Bladder cancer                                    | Parkinson disease                         |
| Brain and nervous system cancers                  | Epilepsy                                  |
| Gallbladder and biliary tract cancer              | Multiple sclerosis                        |
| Larynx cancer                                     | Migraine                                  |
| Thyroid cancer                                    | Non-migraine headache                     |
| Mesothelioma                                      | Other neurological conditions             |
| Lymphomas, multiple myeloma                       | <b>Sense organ diseases</b>               |
| Hodgkin lymphoma                                  | Glaucoma                                  |
| Non-Hodgkin lymphoma                              | Cataracts                                 |
| Multiple myeloma                                  | Uncorrected refractive errors             |
| Leukaemia   | Macular degeneration                      |
| Other malignant neoplasms                         | Other vision loss                         |
| Other neoplasms                                   | Other hearing loss                        |
| Diabetes mellitus                                 | Other sense organ disorders               |
| Endocrine, blood, immune disorders                | <b>Cardiovascular diseases</b>            |
| Thalassaemias                                     | Rheumatic heart disease                   |
| Sickle cell disorders and trait                   | Hypertensive heart disease                |
| Other haemoglobinopathies and haemolytic anaemias | Ischaemic heart disease                   |
| Other endocrine, blood and immune disorders       | Stroke                                    |
| <b>Mental and substance use disorders</b>         | Cardiomyopathy, myocarditis, endocarditis |
| Depressive disorders                              | Other circulatory diseases                |
| Major depressive disorder                         | <b>Respiratory diseases</b>               |
